

## **Mickel Therapy Two-Day Seminar for Health**

Dr David Mickel and Kyle Davies of Mickel Health Initiatives Ltd offer you the opportunity to join them on two-day seminars to apply the process of Mickel Therapy on your own health challenges.

### **So what is Mickel Therapy?**

It is best described as a series of tools that can be applied to a variety of human illnesses thus giving you the ability to reclaim maximum health. It is based on an understanding that the source of many of our health conditions is the result emotional energy has on cellular vibration. In other words every situation we go through in life creates a primary e-motional wave, without thought, that passes directly into our physical cells and starts to rewire them pathologically and this process results in 'dis-ease'.

### **Who would benefit from the seminar?**

The workshop has been created not only for those of you who may already suffer from the Energy Disorders such as CFS/ME, Fibromyalgia, Irritable Bowel Syndrome, Depression and Anxiety but also for people interested in having a new holistic approach to their general health.

### **What is involved in the two days?**

During the two days there will be opportunity to cover the following:

- Mickel Therapy's view of how 'dis-ease' is created through a misunderstanding of the nature of human e-motions.
- We will look at the significant differences between primary and secondary e-motions and the rules these play in our health.
- Opportunity will be given for those attending to explore the above in relation to their own health challenges in a safe facilitated environment.
- A new perspective on the nature of some of the most common conditions affecting us will be offered through the eyes of Mickel Therapy and how our tools can be applied to these.
- Explanation of the human **Matrix and Keys to Health** will be gone through. This will allow seminar delegates to learn how to self apply these tools with a view to possibly having ongoing help with the process from a local trained and supervised Mickel Therapist.

While the nature of your human existence and the cellular rewiring effect of this may not have manifested itself in overt symptoms of an 'Energy Disorder' we believe that this two-day seminar will provide you with essential tools to ensure maximum health in your ongoing journey through life.

## **Price**

The cost of the seminar will be NZ\$325 (or NZ\$295 Earlybird for registrations by 31 March) payable in advance and is open to all. It will be especially useful as a very cost effective starter for those wishing to embark on a course of Mickel Therapy treatment.

Should you have interest in attending a seminar then please contact Kim Knight at [kimk@mickeltherapy.com](mailto:kimk@mickeltherapy.com) or phone 09 833 6553 / 021 410 633.

We also offer Mickel Therapy Training Seminars internationally. In these six-day events we teach you the skills to start offering treatment to people suffering from energy disorders. More details of this can be found on the New Zealand website [www.mickeltherapy.co.nz](http://www.mickeltherapy.co.nz) or the UK website [www.mickeltherapy.com](http://www.mickeltherapy.com) on the training page where you will find on display a list of upcoming training events and venues with costs and other details.

Regards

Mickel Health Initiatives Ltd Administration
